

PowerSorter 2009, v.5.0 Released

Was released PowerSorter 2009, v.5.0.

Differences, related to previous versions:

The most important improvement of new PowerSorter version - is easy to use "Main Configuration" wizard.

It is shown after program installation and running at the first time automatically. New wizard will let users to start using PowerSorter in seconds. It help to define:

- source directory (folder, files from which PowerSorter will process: rename, sort, organize);
- database directory (folder, to which files will be moved or copied after processing);
- action (what to do with processed files: copy them from source directory to database, or move);
- registration (for users, who still did not registered their PowerSorter 2009 product copy, may do it now in automatical mode).

Last product version may be purchased in our online store. All registred PowerSorter 2009 users can get it for free.
